CONTENTS

1 Abstracts of papers presented at the thirteenth meeting of the Scandinavian Association of Geneticists

231 AMEMIYA, C. T. and GOLD, J. R.: Cytogenetic studies in North American minnows (Cyprinidae). XVII. Chromosomal NOR phenotypes of 12 species, with comments on cytosystematic relationships among 50 species

65 ANAMTHAWAT-JÓNSSON, K. and TOMASSON, T.: Cytogenetics of hybrid introgression in Icelandic birch

89 ARNQVIST, G.: Heritability estimates of morphological traits in *Gerris odontogaster* (Zett.) (Heteroptera; Gerridae)

265 BHAGIRATH, T.: C-band fusion and behaviour of the involved chromosomes during meiotic prophase I of the male domestic pig

71 BIGI, D., GAHNE, B. and JUNEJA, R. K.: Further data on adenosine deaminase polymorphism in pigs and evidence for a new allele

21 BROOK ABEBE, LUNDQVIST, U. and LUNDQVIST, A.: Enhancing interaction of recessive *intermedium* genes of barley in combinations with the six-row gene *hex-v*

33 BROOK ABEBE: Lateral floret development in barley as influenced by recessive *intermedium* genes in a heterozygous state. I. Interaction with recessive *int* genes at other loci

39 BROOK ABEBE: Lateral floret development in barley as influenced by recessive *int* genes in a heterozygous state. II. Interaction with semidominant *Int-d* genes

49 CLAESSON, L., KOTIMÄKI, M. and BOTHMER, R. VON: Crossability and chromosome pairing in some interspecific *Triticum* hybrids

77 DJALALI, M., ADOLPH, S., STEINBACH, P., WINKING, H. and HAMEISTER, H.: Fragile sites induced by 5-azacytidine and 5-azadeoxycytidine in the murine genome

141 FACCIO DOLFINI, S.: Heterochromatin heterogeneity in *Drosophila* chromosomes detected by AluI-banding

193 FISKESJÖ, G.: Occurrence and degeneration of 'Al-structures' in root cap cells of *Allium cepa* L. after Al-treatment

249 FOLKESON, D.: Assignment of linkage segments to chromosomes 3 and 5 in *Pisum sativum*

257 FOLKESON, D.: Assignment of linkage segments to the satellite chromosomes 4 and 7 in *Pisum sativum*

179 GARCIA, B. A., GARDENAL, C. N. and BLANCO, A.: Heterozygosity and gene flow in populations of *Calomys laucha* (Rodentia, Cricetidae)

83 HARBITZ, I., CHOWDHARY, B., CHOWDHARY, R., KRAN, S., FRENGEN, E., GUSTAVSSON, I. and DAVIES, W.: Isolation, characterization and chromosomal assignment of a partial cDNA for porcine 6-phosphogluconate dehydrogenase

151 HARBITZ, I., CHOWDHARY, B. O., SAETHER, H., HAUGE, J. G. and GUSTAVSSON, I.: A porcine genomic glucosephosphate isomerase probe detects a multiallelic restriction fragment length polymorphism assigned to chromosome 10 pter in horse

209 IANNUZZI, L., DI MEO, G. P., PERUCATTI, A. and FERRARA, L.: The high resolution G- and R-banding pattern in chromosomes of river buffalo (*Bubalus bubalis* L.)

295 ISLAM, M. R. and KUTUZOVA, S. N.: Evidence for the presence of a resistance factor(s) in 'Orshanskii 2', a flax cultivar considered to be universally susceptible to rust strains of the USSR

93 LINDE-LAURSEN, I., BOTHMER, R. VON and JACOBSEN, N.: Giemsa C-banded karyotypes of South and Central American *Hordeum* (Poaceae). II. 6 polyploid taxa

109 LU, B.-R. and BOTHMER, R. VON: Intergeneric hybridization between *Hordeum* and Asiatic *Elymus*

221 OJALA, A., ROUSI, A., LEWING, E., PYYSALO, H. and WIDÉN, C.-J.: Interspecific hybridization in *Papaver*. III. F_1 hybrids between species of sect. Oxytona

129 PALMGREN, B.: Sex-chromosome segregation in inbred *Drosophila melanogaster* XXY females. I. Influence of closely related Y chromosome derivatives
277 PALMGREN, B.: Recombination in the region between the marker *forked* and the centromere in inbred *Drosophila melanogaster* XX and XXY females
187 PERETTI, D., MEZZANOTTE, R. and SUMNER, A. T.: Unfixed and fixed human chromosomes show different staining patterns after restriction endonuclease digestion
217 POHLER, W. and SCHLEGEL, R.: A rye plant with frequent A–B chromosome pairing
289 RICHER, C. L., POWER, M. M., KLUNDER, L. R., MCFEELY, R. A. and KENT, M. G.: Standard karyotype of the domestic horse (*Equus caballus*). Committee for standardized karyotype of *Equus caballus*. The Second International Conference for Standardization of Domestic Animal Karyotypes. INRA, Jouy-en Josas, France, 22nd–26th May 1989
157 SÄLL, T., FLINK, J. and BENGTSSON, B. O.: Genetic control of recombination in barley. I. Variation in recombination frequency measured with inversion heterozygotes
171 SÄLL, T.: Genetic control of recombination in barley. II. Variation in linkage between marker genes
283 SAURA, A., JOHANSSON, B., ERIKSSON, E. and KOHONEN-CORISH, M.: Genetic load in northern populations of *Drosophila subobscura*
13 SCHERTHAN, H., ÁRNASON, Ú. and LIMA-DE-FARIA, A.: Localization of cloned, repetitive DNA sequences in deer species and its implications of gene territory
203 SINGH, B. N. and SINGH, A. K.: Linkage disequilibrium in laboratory strains of *Drosophila ananassae* is due to drift
271 WU, X.: Transition of R- to I-type in inbred lines of *Drosophila melanogaster*
117 YONEMURA, I., ABE, M., ISHIDATE, R., ISHIYAMA, T., MOTOYAMA, T., HASEKURA, H. and BOETTCHER, B.: Influence of temperature on the inheritance of adult life span in *Drosophila melanogaster*
57 ZEMEDE ASFAW and BOTHMER, R. VON: Hybridization between landrace varieties of Ethiopian barley (*Hordeum vulgare* L. ssp. *vulgare*) and the progenitor of barley (*H. vulgare* L. ssp. *spontaneum*)
